DETAILED ACTION

Election/Restrictions

1. In the response filed 10-24-03 Applicants added new claims 53-60. The newly added claims recite sequence disclosures that were not previously searched with the claimed invention.

Pursuant to 35 U.S.C. 121 and 37 C.F.R. 1.141, the RNA vector sequences listed in claims 53-60 are subject to restriction.

2. Claims 53 and 57 recite a viral RNA vector comprising the nucleotides sequence of SEQ ID NO: 2 from nucleotide 5443 to 5518, Claims 54 and 58 recite a viral RNA vector comprising the nucleotide sequence of SEQ ID NO: 5 from nucleotide 5430 to position 5505, claims 55 and 59 recite a viral RNA vector comprising the nucleotide sequence of SEQ ID NO: 12, and claims 56 and 60 recite a viral RNA vector comprising the nucleotide sequence of SEQ ID NO: 4 from nucleotide position 1 to position 197. Although the nucleotide sequences recited in each claim correspond to the composition of a viral RNA vector, each sequence is considered to be unrelated, because each sequence as claimed is structurally and functionally independent and distinct since each sequence has a unique nucleotide sequence and each sequence requires a separate search and consideration of the prior art.

3. Furthermore, a search of more than one (1) of the viral RNA vector sequences recited in claims 53-60 would present an undue burden on the Patent and Trademark Office due to the complex nature of the search and corresponding examination of more than one (1) of the claimed nucleotides sequences. In view of the foregoing, one (1) viral RNA vector sequence is considered to be a reasonable number of sequences for examination. Accordingly, applicants are

Art Unit: 1635

required to elect one (1) viral RNA vector sequence from claims 53-60, and indicate which of the pending claims are considered to read on the elected invention.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
